His No. 35 dated 9th April 1892.

In reply to the above, has the honor to state that ten tons of Sandalwood appear to have been ordered to be collected annually and that more could not be attempted for want of establishment. If the Mysore Department is prepared to pay the Salaries of a Sandal Manegar and a couple of Kolkars who will have to be specially employed for the

purpose, the undersigned will en-
deavour to collect a larger
quantity. It is of course advisable
to collect all the dry trees first and
then to touch the green trees. If the
Candal trees referred to by Dr Rangia
Sabbar are dry trees it would be
necessary to take steps to collect
such at once but owing to the
nature of the Country and the
scarcity of labor the cost will be
comparatively high The undersigned
would suggest that Dr Rangia
Sabbar may be requested to re-
commend one or two Competent
Contractors to undertake the
work at a reasonable rate.

Requests that the list herein
enclosed may be forwarded to Secret-
ary to the Government of Mysore,
Municipal Branch, who has called
for the same in his No. 479 dated
23rd February 1892 to the Deputy
Commissioner.

Order thereon — No. 268/10 of 4/6/92

The previous records shew that the temple is in possession of large forests of sandal trees yielding a large amount of revenue if due care is taken. The annual collection of the sandal wood belonging to the Institution is comparatively small.
